

For WRAM Members only:

"Fluid Therapy Lab: The Water of Life – Your Patients Cannot Live Without It!"

Date: Sunday, April 30, 2017

Time: 10am-1pm

Registration fee: \$10.00

Location: McGrath Lab at the Cummings

School of Veterinary Medicine at Tufts

200 Westboro Road

North Grafton, MA 01536

Dr. Rob Adamski and Dr. Priya Patel of the New England Wildlife Center will teach you:

- Basic fluid treatment theory
- Explain common situations encountered in wildlife medicine where fluid therapy would prove helpful
- Provide basic protocols rehabilitators can utilize for commonly encountered situations
- Summarize and emphasize how to use fluid therapy in a practical setting
- Practice how to administer fluids to patients under supervision by utilizing mammal, reptile, and avian cadavers.
