

For WRAM members only:

# Introducing the WRAM 2019 Lab Series

**Saturday, August 17**

Lab #1: Designed for beginners

Location: McGrath Lab at Tufts

**“Medicine makes sense...but you need to have a plan!”**

*We will cover initial triage and developing a treatment plan for common wildlife cases. We will then practice by going through case scenarios with the students.*

**Saturday, September 28**

Lab #2: Medium level course

Location: McGrath Lab at Tufts

**“It’s all about the calories and keeping hydrated!”**

*We will discuss proper nutrition for orphaned, ill and injured wildlife as well as designing diets for them. Finally, we will have a practical lab so students can practice tube feeding patients and administering SQ fluids.*

**Saturday, October 26**

Lab#3: Advanced level course

Location: Wood Conference Room, Tufts Wildlife Clinic building

**“How to identify creepy crawlies in and on your patients & how to kill them!”**

*We will discuss common parasites found in wildlife, how to identify and diagnose a parasite related problem as well as how to successfully treat them. We will cover treatment regimens to include common misconceptions and problems when treating parasites.*

***Time: all labs are 10am-1pm***

***Registration fee: \$15.00 per lab, \$45.00 for all three. NO refunds available. Please only register for the labs if you definitely plan to attend as space is limited and we want to operate at full capacity.***

***Location: Cummings School of Veterinary Medicine at Tufts University  
200 Westboro Road, North Grafton, MA 01536***

***Registration is online only.***

***To register, please visit the members' section at [www.wraminc.org/members](http://www.wraminc.org/members)***

***\*\*\*\*Space is limited, so please register early\*\*\*\****

***Registration will be confirmed by a WRAM representative via email.***
